

## REGULATORY

**In particular, the Regulatory team deals with the following matters:**

### REGULATORY

It offers a personalised service, designing a legal framework that fits each specific case and it has extensive multi-disciplinary experience.

The Regulatory and Markets team offers consulting and advocacy services in the sectors of:

- Trains
- Road transportation
- Maritime and port transportation
- Metropolitan transport
- Airline industry
- Electricity
- Hydrocarbons
- Renewable energies
- Telecommunications industry

Likewise, in relation to large projects and public infrastructures, the team has expertise in public procurement, legal advice and drafting of specifications, preparing bids and administrative and contentious-administrative appeals in the area of public procurement.

It also has wide-ranging knowledge on administrative concessions and public-private collaboration projects and extensive experience in consultancy in areas such as forced compulsory purchase orders, administrative law penalties and equity liability claims.
