**In particular, the UK Desk team deals with the following matters:**

UK DESK

'The team is really client-oriented; the lawyers are timely and proactive and particularly good at maintaining close relationships with clients and reconciling different positions among parties in negotiations.'

The UK Desk channels and coordinates Roca Junyent's services targeted specifically at British clients or clients with interests in the UK.

Formed by a multidisciplinary team of Roca Junyent lawyers based at different offices and specialized in various practice areas, the members of the UK Desk are equipped to assist clients to grasp the major differences between Spain and the UK in terms of legal systems and business environments.

We have in place several partnership agreements with leading UK law firms, ensuring that Roca Junyent's clients receive an immediate, effective response to the demands raised by their international deals.

Specifically, the UK Desk deals with:

- Matters of the Firm's Spanish clients in the UK, including: incorporation of affiliates, branches or representation offices; agency or distribution agreements, real property investment, joint ventures, and company acquisitions.

- Affairs of British clients in Spain. Our professional legal advice is adjusted to account for the differences between the culture and legal systems of Spain and the UK, thus enabling our clients to make informed business decisions in such important areas as Labour Law and Tax.
